Dr. David H. Adams
Professor and Chair, Cardiothoracic Surgery
Mt. Sinai Medical Center
Guggenheim Pavilion
1190 5th Avenue
New York, NY 10029

Dear Dr. Adams,

I would like to thank you, Dr. Di Luozzo, Teresa, Terry, Edith, Joel, Catherine, the rest of your staff and all the rest of the doctors and nurses at the Mt. Sinai Medical Center for the wonderful care that you have given my wife Florence before, during and after her recent surgery to repair a cardiothoracic aneurysm. I would like to be able to thank each of them personally, but there were so many that I cannot recall all of their names. Perhaps you can pass my gratitude on to them. Everyone I came into contact during my visits to the hospital were extremely helpful and courteous, even the workmen.

When we first visited you in June it was a very stressful situation for us, as you can imagine; your patience in carefully explaining what was going on and the time you spent with us was greatly appreciated. Later, in October, during our second visit, when the need for surgery was apparent from the second CT Scan, I found your patience and calmness very reassuring. I especially remember your parting words to me "Don't worry, I'll take good care of her." You certainly have done that and I thank you most gratefully.

Sincerely,

John
