

Dear Dr. Adams

12/11/08

Words can hardly express my heartfelt appreciation for your generosity in performing my surgery so expeditiously but more importantly the apparent mastery with which you performed.

I hardly thought that I could be at home writing this letter a mere 6 days after surgery. You

Larry and Kim

have invigorated my strength and optimism for a healthy and long life - a true walking advertisement for your remarkable work.

Much thanks to you and your wonderful staff and best wishes to you in the new year.

All the best! Larry
